

## Proposition 84 Storm Water Grant Program: Proposed Minimum & Maximum Grant Amounts, Match Requirements, and Project Timeline

The following two tables, found in Section VI.B (pages 6 & 7) of the Draft *Proposition 84 Storm Water Grant Program Guidelines* (Guidelines), include the proposed minimum and maximum grant amounts, match requirements, and the timeline for implementation projects. Information for implementation projects, which may include planning and monitoring costs associated with the project, is presented in the tables below.

The proposed minimum and maximum grant amounts, match requirements, and timing are different for Planning and/or Monitoring Projects funded under California Public Resources Code (PRC) § 75072. More information on Planning and/or Monitoring Projects can be found in Section VI.E (page 9) and Appendix G of the Draft Guidelines.

**Table 1 – Minimum and Maximum Grant Amounts, and Match Requirements**

| Minimum Grant Amount   | Maximum Grant Amount    | Match Requirement <sup>1</sup>  |
|--|-------------------------|---|
| \$250,000 per Project  | \$5,000,000 per Project | <p><b>Group A: Small &amp; Severely Disadvantaged Community</b><br/>5% if population less than 20,000 persons <b>AND</b><br/>MHI is less than 60% Statewide MHI <sup>2</sup></p> <p><b>Group B: Small &amp; Disadvantaged Community</b><br/>10% if population is less than 20,000 persons <b>AND</b><br/>MHI between 60-80% Statewide MHI <sup>3</sup></p> <p><b>Group C: All Others</b><br/>20% if population is greater than 20,000 persons <b>OR</b><br/>MHI is more than 80% of Statewide MHI</p> |
| <p><sup>1</sup> Match is calculated based on the total project cost, not on the grant amount.</p> <p><sup>2</sup> Less than 60% of the average statewide median household income (MHI) is considered severely disadvantaged, PRC § 75005(g).</p> <p><sup>3</sup> Less than 80% of the average statewide MHI is considered disadvantaged, PRC § 75005(g).</p> |                         |   |

**Table 2 – Project Timeline <sup>1</sup>**

| Round  | Fiscal Year (FY) Appropriation | Encumber by Date <sup>2</sup> | Construction Complete <sup>3</sup> | Final Report | Work Completion Date | Final Invoice Date |
|--|--------------------------------|-------------------------------|------------------------------------|--------------|----------------------|--------------------|
| 1  | FY 2007/08 & FY 2008/09        | June 2011                     | March / September 2012             | January 2013 | March 2013           | May 2013           |
| 2  | FY 2008/09 & FY 2009/10        | June 2012                     | March / September 2013             | January 2014 | March 2014           | May 2014           |
| <p><sup>1</sup> Project timing is subject to legislative appropriation of funds. Funds appropriated in future years will be disbursed in accordance with the appropriation(s) schedule(s).</p> <p><sup>2</sup> The “Encumber by Date” is the date by which grant agreements between the State Water Resources Control Board and the grantee must be executed.</p> <p><sup>3</sup> Construction must be completed early enough to perform a minimum of one dry and/or wet weather season of post-construction monitoring, as appropriate, to determine project effectiveness.</p> |                                |                               |                                    |              |                      |                    |
